

Ultimate Rockstone Empire

Monsoon Black Natural Stone

Raw Blocks

Quarry-selected blocks for
processing and wholesale supply

MONSOON BLACK NATURAL STONE

A dense, durable natural stone extracted and supplied directly from our mines.

Selected for consistent structure, stable cutting behaviour, and suitability for downstream processing into slabs, tiles, and cut-to-size products.

Supplied to processors, exporters, and wholesale stone buyers.

Block Classification

To support predictable processing outcomes, blocks are classified at quarry level based on internal structure and visual character.

Our primary block categories:

- SmokeGrey-Lining Blocks
- Mercury Black -Figure Blocks
- Patagonia Black -Quartz Embedded Blocks

Each block is individually assessed before dispatch.

Smoke Gray : Lining Block Category

Characterized by:

- Uniform grain structure
- Low visual variation
- Stable internal composition

Preferred for:

- High-yield slab production
- Large-format tiles
- Projects requiring visual consistency

Mercury Black : Figure Block Category

Characterized by:

-
- Natural veining and movement
Medium to high visual
expression
- Distinct surface patterns when
cut

Preferred for:

- Feature slabs
- Decorative stone products
- Applications where natural
character is valued

Quartz Embedded Block Category

Characterized by:

- Visible quartz inclusions
- Natural contrast within the stone
- Strong material presence after cutting

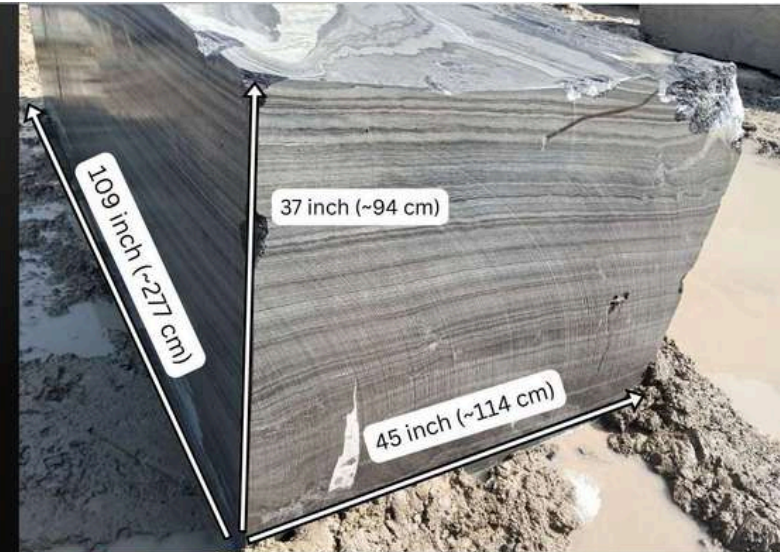

Preferred for:

- Statement slabs
- Specialty stone products
- Buyers seeking differentiated material

Block Size & Yield

- Blocks supplied in commercially viable sizes. Suitable for gang saw and standard processing equipment. Selection aimed at
- optimizing slab yield and reducing wastage.

Exact dimensions and yield expectations are discussed on a per-block basis.

Supply & Trade Engagement

- Direct quarry sourcing
- Project-based or bulk block supply
- Domestic and export-oriented buyers
- Long-term supply relationships preferred

Logistics and pricing aligned as per volume, destination, and specifications.
